

## APPLICATION

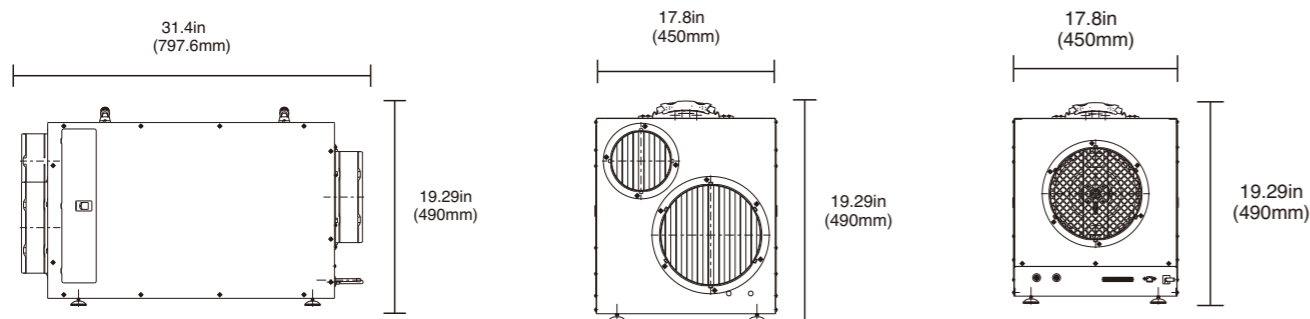

Uni-P H2O 200H is one of the most powerful dehumidifiers in the market today. It is capable of removing 200 pints of water per day from the air at 80 F and 60% R.H. while only consuming 13 amps/115V. The most impressive fact of this dehumidifier is even with its high capacity it is the same size as the Uni-P H2O 100H.

This is the ideal dehumidifier for anyone looking for a whole house dehumidification, especially for big size houses with high ceilings. This unit should be installed at a central part of the space to be dried.

Uni-P H2O 200H dehumidifier has 3 detachable duct collars :

- 1.Inlet: 10" Round Duct Collar  
6" Round Duct Collar
- 2.Outlet: 10" Oval Duct Collar

They can be used to duct the dehumidifier to the house heating system to increase the fresh air ventilation in the through the entire house.

## PERFORMANCE

The Uni-P H2O 200H dehumidifier is the most efficient large space unit because it is equipped with long life impeller fan and an optimized air to the air heat exchanger, that allows the dehumidifier to remain fully operational at even at low temperatures.

- Built for quiet operation, the Uni-P H2O 200H dehumidifier only produces less 59 DBA sound levels. this dehumidifier will ventilate and dehumidify the air in your home while maintaining the comfort levels.
- The Uni-P H2O 200H dehumidifier is equipped with auto-restart. This feature allows the unit to automatically restart and reinstate previously set settings after power outages. This feature provides convenience and easy of dehumidifier operation.

The Uni-P H2O 200H dehumidifier will greatly improve the quality of your indoor space. This unit is fitted with MERV 13 that will trap even the micro-size mold spores, dust particles and other allergens in the air. After whole house air filtration, the increased indoor air quality will reduce respiratory problems and allergies among your family.

## UNI-PH2O 200H Commercial Dehumidifier

### FEATURES

- ✓ Energy Star Listed
- ✓ Compressor Type Rotary
- ✓ Epoxy Powder Coating
- ✓ Condensate Pump
- ✓ Easy handling
- ✓ Water Full protection
- ✓ Environmental R410A Refrigerant
- ✓ Automatic humidistat control
- ✓ Memory Starting
- ✓ Continuous Model
- ✓ HVAC Remote System
- ✓ Low Temperature
- ✓ Bypass Air sensor

### PACKAGE TO BE DELIVERED WILL CONTAIN:

- 1.The Uni-P H2O 200H dehumidifier.
- 2.User Manual \*1

## SPECIFICATIONS

**Power**  
115V/60HZ

**Size For**  
Not over 5,000 sq.ft

**Filter**  
MERV 13

**Air flow**  
520 CFM

**Sound Pressure Level**  
<59DBA

**Refrigerant**  
R410a

**Display type**  
Digital

**Current(115v/60Hz)**  
12.2 A ( 80°F/60%RH )

**Compressor type**  
Rotary

**Capacity115V(80°F-60%)**  
200Pints(15.6L/D)

**Wheel**  
Adjustable wheel

**Easy handling**  
Plug and play design – easy to operate

**COP(115v/60Hz)**  
2.80L/Kwh

**Loading quantity**  
40"HQ: 300Sets

**Sensible Cooling**  
4500 BTU/h

**Draining**  
Gravity draining

**Defrosting Control System**  
Wind defrosting

**Weight**  
130 lbs(59KG)

**Dim(W\*H\*D)**  
31.4' x 19.3' x 17.8'

**Ideal Functioning Humidity Range**  
35~95%

**Functioning Temperature Range**  
33.8~110°F
